

# HOW TO PRIORITIZE YOUR WEDDING BUDGET

PRIORITIZE WEDDING BUDGET

PRIORITIZE WEDDING BUDGET

Some couples have absolutely no idea where to even begin when it comes to setting a wedding budget. Here is a list of the popular vendors. Sit down with your partner (and maybe whoever is contributing to the budget), go through the list and give each item a rating of 1 to 10. 10 means that it's very important to you and 1 means not so important and can do without. This way, you know exactly what is priority and what you want to splurge on, while cutting back on other areas of your celebration. More information and instructions [on our website](#).
